Product: Wholesale Western Australia Transparent Drive License Hologram Overlay | Custom WA State ID Card Holographic Overlay Film for Stickers

Page: <https://www.zigpac.com/custom-wholesale-western-australia-hologram-overlay.html>

Brief generated: 2026-06-13 21:09:28 +0800

Source boundary: This brief uses the product title, current product-page copy, Magento SEO fields, and the existing video manifest/transcripts. It avoids unverified technical claims and does not change the current product video.

1. Executive Summary

ZPCS0004 is a wholesale Western Australia (WA) transparent drive license hologram overlay product. The verified video script describes it as a clear hologram film with a bright hologram effect, intended for quote-based wholesale inquiries where the buyer sends size and quantity.

Use this PDF as a compact sales-support brief: it should help a buyer understand the product category, what to confirm before ordering, and what information Zigpac needs to prepare a quote.

2. Verified Source Inputs

- **Product title:** Wholesale Western Australia Transparent Drive License Hologram Overlay | Custom WA State ID Card Holographic Overlay Film for Stickers
- **Existing gallery video script:** "WA hologram film. Clear. Bright. Send specs for quote."
- **Existing detail video script:** "WA hologram film. Clear. Bright. Send specs for quote."
- **Video source id(s):** 693ef110f4
- **Manifest slots audited:** gallery and detail video slots, poster images, English transcripts, multilingual subtitle/transcript entries.
- **Video complexity note:** scene-change probe counted 4 frames above threshold 0.18 across gallery+detail; transcript total is 18 English words. This supports reusing the current video as a source rather than recreating video content.

3. Product Use Context

This product is positioned as a transparent hologram overlay film/sticker for WA state ID-card-style applications. Buyer-facing copy should stay at the level of product selection, appearance, fit, and procurement requirements.

Recommended legitimate-use wording: use only for authorized document-protection, internal verification, sample, novelty, branding, or other lawful applications. Do not use overlays to alter, counterfeit, or impersonate official credentials.

4. Appearance and Handling Notes

- Clear / transparent film presentation.
- Bright hologram visual effect, based on the existing video transcript.
- State-specific overlay positioning should be confirmed by buyer-supplied dimensions, artwork, and reference requirements.
- For quote preparation, request the final size, quantity, intended surface, and any artwork/pattern requirement before confirming production details.

5. Buyer Information Needed for Quote

1. SKU or state version requested: **ZPCS0004 / Western Australia (WA)**.
2. Required overlay size and tolerance.
3. Quantity and whether the order is a sample, small batch, or wholesale batch.
4. Desired hologram pattern/artwork/logo requirement, if any.
5. Application surface and whether the buyer needs film only or sticker/adhesive handling.
6. Destination country and expected delivery timeline.
7. Any compliance or authorization requirement for the buyer's use case.

6. FAQ

Q1. Can Zigpac quote this product from only a photo or name?

A: A preliminary quote can be discussed, but final pricing should use confirmed size, quantity, artwork/pattern requirement, and delivery destination.

Q2. Does the current video need to be remade for this SKU?

A: No. The existing audited manifest already has gallery and detail video slots, poster images, and English scripts. This PDF/audio update reuses that source.

Q3. What should the buyer send first?

A: Send the required state version, size, quantity, and any pattern/artwork notes. If the buyer has a reference image or layout, send it for quoting context.

Q4. Is the product for unlawful ID alteration?

A: No. Buyer must use any hologram overlay only for lawful and authorized purposes. Zigpac should not support counterfeiting, impersonation, or misuse of official credentials.

7. Procurement Recommendation

For fastest processing, ask the buyer to send: “ZPCS0004 WA hologram overlay, size , **quantity** , destination , **artwork/pattern notes** .” This keeps the inquiry aligned with the verified product page and avoids guessing technical details.

8. Internal Traceability

The raw product-page source excerpt is retained in the Step 3 audit JSON/Markdown and is not printed in the customer-facing PDF brief. This avoids copying inconsistent or unverified page-copy details into the deployed PDF.
